CHANAKYA

NI POTH

Govt's Rs 25,000-cr realty fund may see some 'structural challenges'

The special fund announced by the finance minister could face some challenges due to its structuring, said private equity fund managers and consultants Chanakya spoke to.

Srini Srinivasan, managing director at Kotak Investment Advisors, said although the government has the right intentions, the devil is in the detail.

"The positive net-worth criteria are a non-starter. There is a risk of insolvency laws not recognising rescue-financing as senior debt in the waterfall. Further, unconventional interpretation by the court of law puts this fund at risk, too. Unless insolvency laws are amended, this will be a case of good money after bad," Srinivasan said.

In waterfall structures, senior debt providers get principal and interest first from

borrowers, and subordinate lenders afterwards.

Said Sharad Mittal, executive director and chief executive at Motilal Oswal Real Estate: "When an investor comes in last-mile financing, he wants preference in waterfall... If that project goes to the National Company Law Tribunal, the investor does not get any preference. That is a challenge with this fund."

A chief executive of PE fund who did not want to be quoted said it would take six to eight months to close the fund and start disbursing.

"Since the new fund would give senior debt, it would get first charge. After one or two years, money the earlier lender gets would be lesser than the principal and he has to take a haircut," said the executive.

Added Sunil Rohokale, chief executive and managing director at ASK Investment Managers: "The fund aims to hand over to projects to customers. It's for other stakeholders, not for developers," he said.

Kotak's Srinivasan added that most of the property projects are housed in special purpose vehicles (SPVs) and these SPVs tend to have very thin capital structures. "So it's easy for them to lose their net worth. Therefore, I am not sure whether that condition is a concurrent condition applicable on all projects or it is just one-off...." said Srinivasan.

He said there has to be sufficient cash flow available between the sold and unsold inventory for this money to go in and get its desired returns, he added.

Eveready profit before tax drops 35.65% to Rs 20.79 crore in Sept quarter

Eveready Industries India has recorded a 35.65 per cent drop in profit before tax (PBT) to Rs 20.79 crore for the quarter ended September 30, 2019, as compared to the same period last year. Net profit dropped 27 per cent to Rs 18.11 crore, as against the same period last year. The company is yet to move to a lower tax rate and is evaluating the same. Gross revenues were lower by 9 per cent to Rs 348.40 crore.

The company said the corresponding quarter of last year had a windfall credit of Rs 4.7 crore towards reversals for labour wage provisions of the closed Chennai manufacturing unit, which was not there in the current year. As a result, despite the superior performance in the battery and flashlights segments, the overall profitability of the company was inferior to that of the corresponding quarter of last year, Eveready said. Turnover

was impacted on weak consumption demand, especially in the segments of lighting and appliances as also discontinuance of the packet cell segment. However, the core categories of battery and flashlights did not see a decline in growth.

The battery segment is expected to show better volume growth from subsequent quarters once full effect of implementation of the BIS standards comes into force.

Eveready said a promoter group level restructuring was underway to monetise assets to meet up the various liabilities of the companies, including the outstanding advances and any potential liability related to the guarantees/post-dated cheques, due to the company.

Good days for Britannia Industries

While Britannia Industries' September quarter (Q2) top line fell a tad short of analysts' expectations...

AP govt ends tie-up with...
